Editorial

1 Does a thermogenic defect play a role in human obesity?
E. Jéquier

Original articles

9 Non-invasive determination of effective stroke volume. Evaluation of a CO_2-rebreathing method in normal subjects and patients
J. Ohlsson, M. P. Hlastala, J. Tranesjö and B. Wranne

19 Insulin single injection clearance. Microsample technique useful in children for determination of glomerular filtration rate
R. Müller-Suur, M. Göransson, L. Olsen, G. Bäcklund and L. Bäcklund

29 Vibration sense and sympathetic vasoconstrictor activity in patients with occlusive arterial disease
K. Bjerre-Jepsen, O. Henriksen, M. Parm, K. Agerskov and K. H. Tønnesen

35 Effect of long-term beta-adrenergic-blockade on calf blood flow in hypertensive patients
M. Lepäntalo and K. J. Tötterman

43 Effect of propranolol on the tone of collateral arteries in patients with occlusion of the superficial femoral artery
K. Agerskov

49 The effects of naloxone on circulating metabolites, glycoregulatory hormones and gut peptides during pelvic surgery
G. M. Hall, T. E. Adrian, S. R. Bloom and K. Mashiter

59 Pulmonary angiotensin II production in respiratory failure
F. Wiberg-Jørgensen, N. O. Klausen, A. Hald, J. Qvist and J. Giese

69 Oesophageal transit of a radionuclide, solid bolus in normals
G. Kjellén and J. S. Svedberg

75 The effects of chloroquine on the electrocardiogram and heart rate in anaesthetized dogs
O. A. Sofola

83 Abstracts of the 3rd Scandinavian Congress of Clinical Physiology

93 **Instructions to authors**

Contents

NUMBER 2, APRIL 1983

Review article

97 Lung surfactant for replacement therapy
B. Robertson

Original articles

111 Effect of terbutaline on lung mechanics and morphology in the preterm rabbit neonate
B. Bergmen, U. Freyschuss, G. Grossman and T. Hedner

123 Influence of second-order data filtering on common forced expiration indices
R. Peslin and P. Jardin

131 Effects of externally applied compression on blood flow in the human dependant leg
H. V. Nielsen

141 Adaptation of human skeletal muscle to endurance training on long duration
P. Schantz, J. Henriksson and E. Jansson

153 Studies on kinetics of albumin in uraemic patterns on chronic haemodialysis: evidence of interstitial albumin wash-down
P. Hildebrandt, H. A. Jensen and J. H. Henriksen

163 Permselectivity of the liver blood-lymph (ascitic fluid) barrier to macromolecules in decompensated cirrhosis: relation to calculated pore-size
J. H. Henriksen

173 Splanchnic galactose uptake in patients with cirrhosis following single injection
L. Ranek, J. Lindskov, N. Tygstrup and K. Winkler

179 Splanchnic galactose uptake in patients with cirrhosis following continuous infusion
J. Lindskov, L. Ranek, N. Tygstrup and K. Winkler

187 Calcium metabolism evaluated by ^{47}calcium-kinetics: a physiological model with correction for faecal lag time and estimation of dermal calcium loss
F. T. Jensen, P. Charles, L. Mosekilde and H. H. Hansen

Concise publication

205 Effect of digoxin on physical performance in healthy man
K. Sundqvist, B. Berglund and T. Jogestrand

NUMBER 3, JUNE 1983

Mini-review

209 The ageing muscle
G. Grimby and B. Saltin

Contents

Original articles

219 Failure of endurance training to alter the cardiovascular response to static contraction
D. R. Seals, D. R. Sinacore, B. F. Hurley, P. M. Nemeth and J. M. Hagberg

227 Quantitative estimation of anaerobic and oxidative energy metabolism and contraction characteristics in intact human skeletal muscle in response to electrical stimulation
H. Sjöholm, K. Sahlin, L. Edström and E. Hultman

241 Regional extravascular lung density and fractional pulmonary blood volume in patients with chronic pulmonary venous hypertension
P. Wollmer, C. G. Rhodes, R. M. Allan, A. Maseri and F. Fazio

257 Pre- and postoperative lung function in sitting and supine position related to postoperative chext X-ray abnormalities and arterial hypoxaemia
J. E. Wirén, S. E. Lindell and C. Hellekant

267 Simultaneous assessment of right ventricular ejection fraction and central haemodynamics at rest and during exercise in patients with pulmonary hypertension
J. A. Dahlström

281 Difference in systolic blood pressure between arm and ankle region in children 0–15 years old
P. E. Nielsen, S. Larsen and N. Olsen

289 Transcapillary escape rate of albumin in juvenile hypertension
K. Roztočil, I. Přerovský, R. Jandová, J. Widimský and I. Oliva

NUMBER 4, AUGUST 1983

Original articles

297 A method for the calculation of renal clearance based on a single plasma sample
L. Jacobsson

307 Estimation of digital circulation and its correlation to clinical signs of ischaemia—a comparative methodological study
T. Jogestrand and B. Berglund

313 Skin perfusion pressure measured by isotope washout in legs with arterial occlusive disease
P. Holstein, J. Trap-Jensen, H. Bagger and B. Larsen

325 Comparison of portable CdTe(Cl) detectors with stationary NaI(Tl) detectors for subcutaneous ^{133}Xe disappearance measurements
J. Bojsen, K. Kølendorf and B. Staberg

Contents

335 Measurement of right and left ventricular ejection fraction in dogs
I. Brynjolf, J. Qvist, T. Mygind, H. Jordening, S. Dorph and O. Munck

349 Flow-volume relations in coronary circulation and distribution of coronary flow into nutritional and non-nutritional compartments
K. S. Virtanen, A. Järvinen, I. Alitalo and E. Riihimäki

359 Relationship between local and total body bone mineral in epileptic patients and normal subjects
I. Tjellesen, A. Gotfredsen, J. Borg and C. Christiansen

365 Arachidonic acid metabolism and regulation of blood flow: effect of indomettacin on cutaneous and subcutaneous reactive hyperaemia in humans
I. Carlsson, B. Linde and Å. Wennmalm

375 Passage of albumin from plasma to suction skin blisters
B. Staberg, S. Groth and N. Rossing

Short communication

381 Effect of the degree and speed of tilt on the immediate heart rate reaction
G. Sundkvist and B. Lilja

NUMBER 5, OCTOBER 1983

Hypothesis

387 Depressed protein synthesis is the dominant characteristic of muscle wasting and cachexia
M. J. Rennie, R. H. T. Edwards, P. W. Emery, D. Halliday, K. Lundholm and D. J. Millward

Original articles

399 Hypoxia elicits liberation of anti-aggregatory substances from isolated rabbit hearts
A. Edlund and Å Wennmalm

411 Effect of the Mueller manoeuvre at different lung volumes on left ventricular performance in normal subjects
M. L. Smucker, S. S. Cassidy and J. V. Nixon

423 Plasma-to-ascitic fluid transport rate of albumin in patients with decompensated cirrhosis. Relation to intraperitoneal albumin
J. H. Henriksen, H. Ring-Larsen, N. A. Lassen, H-H. Parving and K. Winkler

433 Measurement of water filtration in skeletal muscle in man by an osmotic transient method
T. Palm, S. L. Nielsen and N. A. Lassen

Contents

453 Effect of cigarette smoking on reactive hyperaemia in the human finger
I. Carlsson and Å. Wennmalm

461 Human myocardial and skeletal muscle enzyme activities: creatine kinase and its isozyme MB as related to cirate synthase and muscle fibre types
C. Sylvén, E. Jansson and C. Olin

469 *In vitro* analysis of thermal transport in coronary sinus thermodilution catheters
E. Bålfors, S. Häggmark, S. Ariola Jr, B. Biber, J. Pontèn and S. Reiz

Rapid communication

477 NADH and NADPH in human skeletal muscle at rest and during ischaemia
K. Sahlin

NUMBER 6, DECEMBER 1983

Original articles

487 How often may a Read rebreathing test be repeated?
F. L. Scamman and M. M. Ghoneim

491 Regional pulmonary clearance of inhaled $C^{15}O$ and $C^{15}O_2$ in man at rest and during exercise
J. N. Pande and J. M. B. Hughes

503 Effect of antacids on intragastric pH in healthy subjects and duodenal ulcer patients. Influence of the size of the antacid dose and of anticholinergics
O. Keyriläinen and A. Uusitalo

513 An evaluation of a duodenal perfusion technique in human studies
O. G. Björnsson, D. R. Fletcher and V. S. Chadwick

525 Effects of jejunal reinfusion of aspirated duodenal fluid on biliary and pancreatic secretion in man
O. G. Björnsson and T. Panayiotides

537 Heterogeneity of splanchnic vascular transit times in man
K. Winkler, L. Bass, J. Henriksen, O. A. Larsen, P. Ring and N. Tygstrup

545 Superior sagittal sinus blood flow in the dog measured by an electromagnetic flow meter. A comparison with a radioactive gas elimination method
J. Elfverson and L. E. Larsson

551 Biochemical responses of the myocardium and red skeletal muscle to *Salmonella typhimurium* infection in the rat
N-G. Ilbäck, G. Friman and W. R. Beisel

565 Platlet aggregability in smoking and non-smoking subjects
I. Carlsson and Å. Wennmalm

Technical note

573 A telemetric technique for studies of venous pressure in the human leg during different positions and activities
H. Noddeland, R. Ingemansen, R. K. Reed and K. Aukland

Short Communication

577 Placenta flow index in posterior wall placentas measured with ^{99m}technetium-labelled human serum albumin
K. Vitting Andersen, O. Munck, J. Falck Larsen and H. Kjeldsen
